DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4, 5 and 8 are allowed.
2. The following is an examiner's statement of reasons for allowance: In addition to applicant's remarks filed 06/21/2007, the primary reasons for allowance are the inclusion of the following limitations in a bandwidth monitoring method suitable for use in a network on which specific type of packets are transferred in preference to packets other than the specific type of packets:

“ monitoring whether the received packet violates a contract bandwidth for the specific type of packets under a contract with the specific source; and
when the received packet does not violate the contract bandwidth for the specific type of packets and the received packet does not correspond to the specific type of packets, transmitting the received packet after converting it to a packet having a specific value in its header that is indicative of the specific type of packets.”

This subject matter is not found in the prior art, nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Information Disclosure Statement

3. For reasons of formalities, the examiner added dates to the cited NPL in the IDS filed 06/02/2000.
